Senate Cuts Necessity to Act on Draft Bill

Quorum Called Thursday so Man Power Bill Can Be Considered Monday

Minimum Age Will Be Basis of Attack

Committee Adds Farmers to Exempt Classification —"Slackers" Are Hit

WASHINGTON, Aug. 12.—In order to expedite the passage of the Administration's man power bill extending draft ages to men from eighteen to forty-five years, the unanimous consent agreement by which the Senate was to transact no business until August 24 is to be set aside and consideration of the bill taken up Monday.

An understanding to this effect was reached to-day by Senate leaders, who at once notified absentees to return next Thursday, at which time the Senate will meet again, a quorum being required to be present three days before the agreement can be vacated.

The bill is still before the Senate Military Committee, but Senator Chamberlain plans to have the committee act upon it to-morrow and report favorably to the Senate on Thursday. In the House no action has yet been taken on the bill.

Kirby to Fight Bill
Senate leaders anticipate some opposition to fixing eighteen as the minimum draft age, but they do not believe that the prohibition amendment, which is being considered by the Senate, will be an overwhelming vote to the Military Committee to-day went on record as opposed to the prohibition amendment for eighteen years as the minimum age in rejecting an amendment proposed by Senator Kirby, of Kansas. He announced the fight for the twenty-one minimum would be renewed when the bill reaches the Senate.

Prohibition leaders were elated to-night over the movement to recall the Senate. The amendment providing for national prohibition during the war is attached to the agricultural bill rider and was made the unfinished business with a vote for August 26. Supporters of the prohibition amendment believe the man power bill can be disposed of after a few days consideration and will not interfere when the time comes to vote on the prohibition question.

Would Limit Exemptions
The Senate Military Committee could not reach an agreement upon the measure, so it could be reported at once as planned, but Chairman Chamberlain said he expected consideration to be concluded to-morrow.

The committee to-day discussed an amendment by Senator Thomas providing that any order granting deferred classification to persons engaged in industrial occupations shall be revoked if he is absent from work for more than five days. Senator Reed, of Missouri, proposed some modifications which will be considered when the committee reconvenes to-morrow.

The committee amended the section permitting the granting of deferred classification to persons engaged in occupations or employments necessary to the maintenance of the military establishment, so as to read "industrial occupations, occupations necessary to the maintenance of the military establishment, or occupations necessary to the maintenance of the military establishment."

Reed Wants Big Army
Immediate extension of the draft ages to include all men between eighteen and forty-five, so that an "irresistible force" can be sent to Europe to shorten the war, was urged by Senator Reed. He warned against over confidence by the Allies and declared now this country is in the war it will have to fight to a finish and that "even with our present army there is a very serious question whether the Central Powers will not have more men than we, or can put them there, than the Allies."

Interrupting the Missouri Senator, Senator Chamberlain quoted a French authority as saying that this year the Central Powers could mobilize 20,000,000 men, compared with 20,000,000 for the Allies.

Senator Reed said if disaster should occur there would be means of getting the American forces home, and for that reason this country must fight to the end.

"Going Over" Is New Army Camp Paper

"Going Over" a weekly newspaper published for departing soldiers by the International War Work Council of the United States, has made its debut and is being distributed free to United States soldiers at embarkation camps.

This "live wire" journal, edited by Percy Edrop, army chaplain and former New York newspaper man, has a news service furnished free by The Associated Press, The United Press and the Universal News Service. All editorial work is done by soldiers in the service of the United States. The paper is said to be the first of its kind to the United States, a contributor, and the organized labor employees of "The Brooklyn Daily Eagle" print "Going Over" free of charge.

The first issue, dated August 5 and carries this statement of policy: "Going Over" has a threefold purpose. It aims to picture to the men who are embarking for overseas duty the conditions that will confront them when they arrive in France.

"Also, it aims to stimulate what has been called the spirit of emulation by telling of deeds of heroism already performed by the vanguard of our great army.

Finally, it aims to proclaim the most loyal of Americans, so that men who are going over may realize to the full hopes of the united nation that is sending them forth."

The Casualty List

WASHINGTON, Aug. 12.—Addition to to-day's army casualty list of a fourth section of 98 names, made public to-night by the War Department, increased the day's total to 403 names. The Navy Department did not issue a Marine list to-day. The army list was divided as follows:

Killed in action, 57; died of wounds, 29; died of disease, 2; died of accident and other causes, 4; wounded severely, 143; wounded, degree undetermined, 161; missing in action, 7. Total, 403.
